PERSONAL PROFILE

I have just finished my Bachelor's Degree in Applied Statistics in June 2022. I am a very proactive person, I have participated in the US Work and Travel program which allowed me to work for a summer in the United States, also, while in university I have worked as a lifeguard, cleaner, teacher and waiter, which adds to my internships and jobs working with data. In my free time I like to read, travel, lift weights and hike…

EDUCATION

Bachelor's Degree in Applied Statistics, *Complutense University of Madrid*   *2018-2022*
- *Average grade 7.8/10*

Exchange Year, *National University of Ireland, Maynooth*   *2020-2021*

EXPERIENCE

R Programmer   February 2022 – April 2022
Quental Technologies, Madrid, Spain
- I was hired for a 3 months project with a spanish bank to code in **R**, I was in a team developing software to automate tasks for the Risk Analysts, such as a calculator for the expected monetary loss given a dataset of mortgages.

Data Analyst Intern   October 2021 – January 2022
Instituto de Estudios Fiscales, Madrid, Spain
- Internship in the Ministry of Finance of Spain, regression and descriptive analysis of Tax Income Data using **SAS**.

Data Analyst Intern   November 2019 – October 2020
Faculty of Statistical Studies, Madrid, Spain
- Analysis of data from surveys using **R**, **SPSS** and **SAS**.

Founder and Podcaster   September 2018 – June 2022
Import Coffee, Madrid, Spain
- In our first year of university, a friend and I decided to found a student's association, Import Coffee has gathered dozens of students interested in programming and statistics, we have organized several workshops (web scraping, python, julia…) and created a podcast where I interview people in the data industry.
